---

## SUMMARY

Detail-oriented Full Stack Web Developer with hands-on experience designing and building scalable, high-performance web applications. Proficient in modern technologies including React, Next.js, Node.js, Express.js, MongoDB, and TypeScript. Currently working at Polosys, leading the development of a customer support ticketing system that enhances issue tracking and workflow automation. Previously interned at Synnefo Solutions, where I contributed to full-stack development, REST API integration, and backend optimization. Dedicated to writing clean, maintainable code and continuously expanding technical expertise.

---

## WORK EXPERIENCE

### Web Developer

Polosys, Kinfra, Kakkanchery

April 2025 – Present

- Developed responsive, high-performance UIs for a customer support ticketing system using React, Next.js, and TypeScript.
- Integrated RESTful APIs for real-time updates and seamless backend communication.
- Optimized performance by reducing bundle size, refactoring components, and improving rendering logic.
- Collaborated with UI/UX designers to implement intuitive, pixel-perfect interfaces.
- Built reusable components and followed Git workflows to ensure scalable, maintainable code.

### Full Stack Developer Intern Synnefo Solutions

Aug 2024 – March 2025

- Developed responsive full-stack web applications using React for front-end and Node.js/Express.js for back-end.
  - Worked with MongoDB to design databases and manage data in scalable applications.
  - Implemented RESTful APIs and integrated them with front-end components.
  - Optimized application performance and debugged issues to improve user experience.
- 

## PROJECTS

### Polosys ERP Ticketing Module

Front-End Developer · Polosys Technologies, KINFRA Kakkanchery

April 2025 – Present

- Developed a dynamic, responsive ticketing interface within the Polosys ERP system using React, Next.js, and TypeScript.
- Integrated RESTful APIs to support real-time issue tracking and status updates across departments.
- Enhanced UI performance by refactoring components and ensuring seamless experience across devices.

### Polosys ERP – E-commerce Module

- Developed a full-stack e-commerce application supporting B2B & B2C transactions with ERP integration for real-time inventory/sales sync.
  - Built an admin dashboard with analytics (charts, reports) for sales tracking, order fulfillment, and business insights.
  - Implemented Firebase Cloud Messaging (FCM) for real-time order/status notifications.
  - Optimized product syncing between ERP and web/mobile apps, reducing sync time by 70%..
- 

## TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript, TypeScript
  - Frameworks/Libraries: React, Next.js, Node.js, Express.js
  - State Management: Redux, Context API
  - Database: MongoDB
  - Tools & Services: Git, GitHub, Firebase, Vercel, Netlify, AWS
  - Specialties: Full Stack Development, REST API Integration, Responsive UI Design
- 

## EDUCATION

### Bachelor of Computer Applications (BCA)

MES Kalladi College, Mannarkkad (2021 – 2024)

2021 - 2024

- Relevant coursework in Software Development, Database Management, and Web Development.
