PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience building scalable, high-performance applications using React, Next.js, Node.js, Express.js, MongoDB, and TypeScript. Strong expertise in developing responsive UIs, integrating RESTful APIs, optimizing performance, and collaborating in Agile environments. Currently contributing to ERP-based customer support and e-commerce systems at Polosys Technologies. Committed to writing clean, maintainable, and reusable code.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Responsive Design
- Backend: Node.js, Express.js, REST API Development, Middleware
- Database: MongoDB, Database Design, Data Modeling
- State Management: Redux, Context API, React Query
- Tools: Git, GitHub, Postman, Firebase, AWS, Vercel, Netlify
- Methodologies: Agile/Scrum, Git Workflow, CI/CD Basics

PROFESSIONAL EXPERIENCE

Front-End Developer

Polosys Technologies | Kakkanchery, Kerala

April 2025 – Present

- Developed responsive ERP user interfaces using React, Next.js, and TypeScript
- Integrated RESTful APIs for real-time ticketing, e-commerce, and accounting modules
- Improved application performance by 20–30% through rendering and bundle optimization
- Built analytics dashboards for business intelligence and reporting
- Collaborated with UI/UX teams to deliver mobile-responsive, pixel-accurate designs
- Implemented reusable component architecture and followed Git workflows

Full Stack Developer Intern

Synnefo Solutions

August 2024 – March 2025

- Built full-stack web applications using React, Node.js, Express.js, and MongoDB
- Developed secure REST APIs with authentication and frontend integration
- Optimized MongoDB queries, reducing API response time by 25%
- Implemented role-based access control (RBAC) and dashboard components
- Debugged and optimized applications to improve performance and stability

PROJECTS

Polosys Books — Accounting & Billing SaaS (In Development)

Front-End Developer | Next.js, TypeScript, Redux, REST APIs

- Developing frontend for a cloud-based accounting system inspired by Zoho Books
- Building UI modules for Invoices, Clients, Expenses, Payments, and Tax Management
- Integrating authentication and role-based access via APIs
- Designing analytics dashboards for financial data visualization

Polosys ERP — E-commerce Module

- Built B2B/B2C ERP-integrated e-commerce workflows
- Reduced product synchronization time by 70%
- Developed admin dashboards for orders and analytics

Polosys ERP — Ticketing Module

- Built real-time ticketing interface for customer support workflows
- Integrated REST APIs for multi-department ticket tracking
- Improved UI performance through optimized rendering

EDUCATION

Bachelor of Computer Applications (BCA)

MES Kalladi College, Mannarkkad | 2021 – 2024

- Relevant Coursework: Software Engineering, Database Management Systems, Web Technologies, Data Structures
